<b>Nitrogen Program</b>		140 units N NH3, 30 units N 28% Pre with Herbicides, 45 units N from 18-46-0 = 215 units N or .8 units N per Bu raised.							<b>Directions:</b>										
<b>Comments:</b>		Dekalb 66-74 with 4X Rate EDC Fungicide at a \$30 per unit premium over Dekalb 61-54 and Wyffels 7158 ended up being money well spent. \$894 less \$841 = \$53 per Acre * 2.32 Acres per Bag = \$122.96 ( DK 61-54 & W 7158 would have to be lower in cost to be equal buys ).
